

Webinar CPD Statement

TITLE OF WEBINAR: The Changing Landscape - A deep dive into the forces currently affecting dental laboratories and what these changes may mean for the future of the industry.

SPEAKER: Jack Marrano

EDUCATIONAL AIMS

Attendees will look at the changing dental laboratory landscape and how this affects not only the dental laboratory industry but the dental practice and the patient as well.

EDUCATIONAL OBJECTIVES

- Understand if esthetics can still be achieved with today's modern materials
- Understand if AI design technology will benefit laboratories
- Recognise how dental manufacturers are helping the current state of the industry
- Be aware of some ways in which communication between clinicians / dentists and technicians can be improved
- Understand how new material advancements can help Dental Labs become more efficient and how these material advancements have helped with growth.

LEARNING CONTENT

After this event participants will be able to understand if emerging technologies can aid the dental laboratory profession in the longer term.

DEVELOPMENT OUTCOMES

This CPD course meets the criteria for the GDC's development outcomes B&D
